
NICHOLAS IDOKO

TECHNOLOGIES

We've got everything you need to launch
and grow your business online

nicholasidoko.com

ABOUT

We work with your budget in developing your ideas and projects in a beautiful and elegant way as well as participate in the growth of your business.

We do a lot of freelance works in various sectors such as blockchain, booking, e-commerce, education, online games, organizational, voting and payments. We provide the needed resources to help clients develop their software packages for their targeted audience on schedule.

Nicholas Idoko Technologies, LLC

VISION

To be the go-to web design agency, renowned for delivering innovative and impactful solutions that drive business growth.

MISSION

To empower brands through exceptional digital experiences, delivered with creativity and technology.

OUR SERVICES

Brand Identity

We have a team of well disciplined designers that could provide magnificent and colourful logos, banners and graphics for your project to suit your audience.

Web Design

We would be managing the design of your website making sure that it is properly responsive on all screen sizes. We also make sure it fits into your target audience.

OUR SERVICES

Marketing

We are well connected to a bunch of internet marketers and SEO engineers that are hungry and willing to take up your project and run it appropriately and diligently.

Illustration

For every stage or milestone in the development of your application. You will be briefed and a proper documentation of the work will be provided for you.

OUR SERVICES

Packaging Design

We run lots of test before the launch of your package and provide room for thorough criticism and observations in order to present you with the best product as always.

Web, App, Blockchain

We take charge of the development and provide you with a reliable, responsive, secure and well functioning website or web application with minimal errors as possible.

WHY

CHOOSE US

1

We have a team of well disciplined designers that could provide magnificent and colourful logos, banners and graphics for your project to suit your audience.

For every stage or milestone in the development of your application. You would be thoroughly briefed and a proper documentation of the work would be provided for you.

2

3

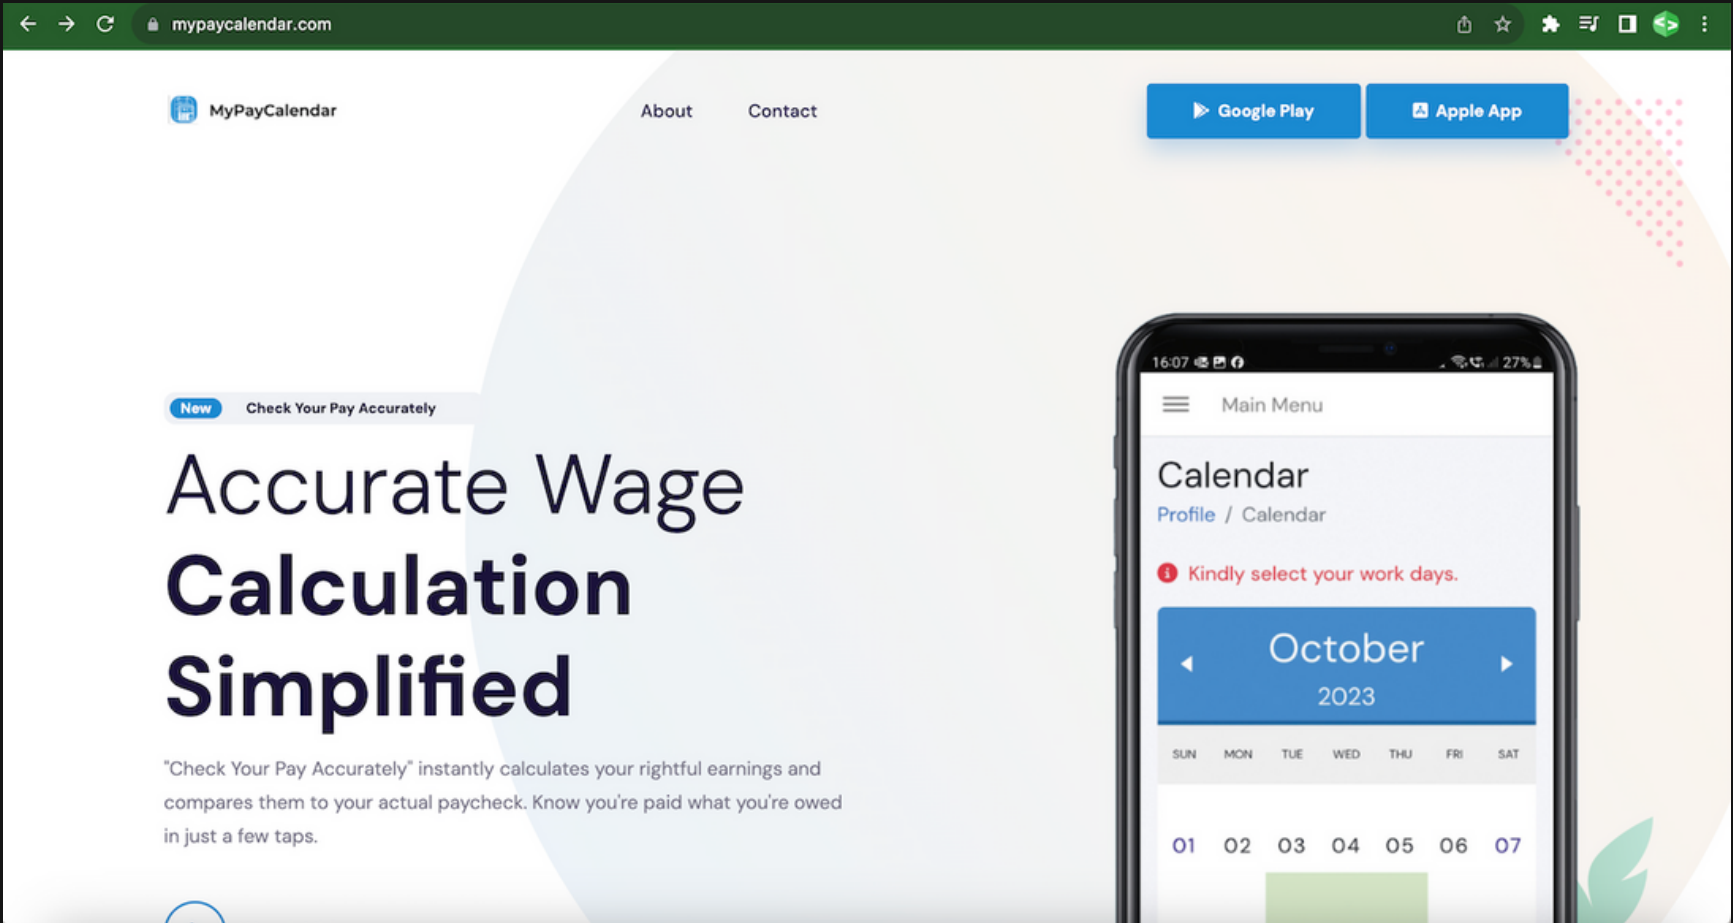

We endeavour to run a whole lots of test before the launch of your package and provide room for thorough criticism and observations in order to present you with the best product as always.

We would be managing the design of your website making sure that it is properly responsive on all screen sizes. We also make sure it fits into the target audience's and your narrative of the product.
